Article 2: Are you in favor of ratifying House Bill 1588, entitled "An Act altering the southeastern boundary line between the towns of Hampton and Seabrook and providing for a referendum?" Said town line shall be as follows:

The southeastern portion of the boundary between the towns of Hampton and Seabrook shall be the low water mark on the south side of the Hampton River. All that portion of the town of Hampton lying south of the low water mark on the south side of the Hampton River is hereby disannexed from the town of Hampton and annexed to the town of Seabrook.

(On the Official Ballot)
(2/3 vote of each town required for ratification.)

YES 1218 NO 356

Article 3: Are you in favor of the adoption of Amendment No. 1, being comprehensive amendments to the existing Town Zoning Ordinance, as proposed by the Planning Board as follows:

These amendments constitute an extensive revision to the existing zoning ordinance both in format and in substance. The substantive changes include, but are not limited to the following:

- A reduction in the minimum lot size in the sewered portion of Zones 1 and 2R.
- A reduction in the minimum frontage depth and width requirements in Zone 2R.
- Changes in the requirements for the construction of dwelling building on lots in Zones 2 and 2R.
- The merger of Zones 4 and 5 into one zone entitled "conservation."
- The allowance of family apartments in Zones 1, 2, and 2R as "special exceptions."
- Eliminate legislative footnotes and consolidation of all definitions into one section.

(Recommended by the Planning Board)
(On the Official Ballot)
YES 847 NO 626

Article 4: Are you in favor of the adoption of Amendment No. 2 as proposed by the Planning Board for the Town Zoning Ordinance as follows:

Amend the official Zoning Map to replace the westerly boundary of Zone 3 with a new boundary as follows:
"Beginning at a point on the Massachusetts line, 3,500 feet west of I-95, the new boundary runs northerly in a line parallel to and 3,500 feet west of I-95 until it reaches a point, 1,700 feet south of New Hampshire Route 107. The new

boundary then runs westerly in a line parallel to and 1,700 feet south of Route 107, until it intersects the current boundary of Zone 1."

(This proposed boundary change would transfer approximately 56 acres situated between Ledge Road and the state line from Zone 1 to Zone 3 and would transfer approximately 59 acres situated between the dog track and Ledge Road from Zone 3 to Zone 1.)

(Recommended by the Planning Board)

BOARD OF SELECTMEN/TOWN MANAGER'S REPORT - 1995

We are pleased to be able to provide you with the following report summarizing the events and activities of 1995:

We are experiencing growth throughout the community in both residential and commercial markets with several new subdivisions along with new businesses. There is also a lot of expansion and modification being projected due to the construction of the new sewer system.

The recycling/transfer station has been completed including the new swap shop. We are now processing cans, newspaper, glass, plastic, cardboard and textiles.

In 1995 we completed a study of the north beach and initiated a review of the harbor. The north beach study evaluated the issue of beach erosion and how to correct. The new harbor study is addressing the development of a new dredging permit that will correct the channel flows, properly dredging the anchorage areas and reduce the erosion of the clam flats.

The sewer project has been under construction for two years, is on schedule and within budget. The wastewater plant started operating in December with our first connection being done on December 18, 1995.

The board would like to encourage your participation in Seabrook's government. This can be accomplished by serving as a volunteer on many committees which town government has or attending meetings and voicing your input on how you would like to see us function. The office of the selectmen and town manager is here to serve you. Please let us know how we can improve our service.

Respectfully submitted,

Board of Selectmen

STREET LIGHT COMMITTEE

The conversion from the mercury vapor lights to the sodium vapor is in its last phase of the project. Hopefully it will be completed by mid 1996. The cost of lighting the town has not shown any savings at this time as several additional lights have been installed.

Residents feeling the street lighting is inadequate in their area can get an application at the town hall. It will be submitted to the committee and they in turn will review the area and make recommendations accordingly.

Any light that is either out or malfunctioning should be reported by calling 474-3311. It would be helpful to give the pole number (the metal numbers vertical on the pole) and the location.

We hope to continue to serve the town in an efficient manner.

ASSESSING DEPARTMENT - 1995

NUCLEAR FACILITIES

In early 1995, the Federal Energy Regulatory Commission issued policy orders heralding the beginning of utility de-regulation, which would make the utility industry competitive. They would be similar in structure to airlines and telephones. The State of N.H. then followed the "lead" of the Federal Government by considering "Retail Wheeling of Power" (a process whereby a retail customer may choose his electric supplier on a competitive price basis, similar to choosing AT&T or MCI, etc., for your phone service). This Governmental action will have an economic, physical & functional effect upon the Electric Industry which has been previously un-matched in history.

The potential valuation effects upon the towns nuclear facilities is obvious and we have been researching and following these events in great detail.

GENERAL TOWN VALUATION

The Great Recession in the Real Estate Market Appears to have been turned around and market values are beginning to "creep" forward again, but at a very slow pace. Hopefully this beginning trend will continue and solidify into measurable market growth trends.

**OFFICE OF CODE ENFORCEMENT
HEALTH OFFICER'S REPORT 1995**

This year the first homes have been connected to the sewer system. On December 18th of this year the official ribbon cutting was done at the home of Anna Eaton on South Main Street. This process of connecting homes to the sewer system will take another two years to complete. Property owners who are having problems with their septic system should have the tank pumped on a regular basis to prevent overflows.

The middle ground clam area did not open this year due to the high pollution counts around the River Street area. The beach sewer is scheduled to be on line this summer and hopefully all of Blackwater River clam area will be opened next fall.

The rabies problem is still with us. Animal control has confirmed cases in skunks and bats. I would like to remind all pet owners to be sure to have their animals shots up to date.

OFFICE OF CODE ENFORCEMENT
BUILDING INSPECTOR'S REPORT 1995

In 1995 six new sites for industrial buildings have been approved and are now or soon to be under construction. There is still a lot of interest in developing our industrial zone on Batchelder Road and Ledge Road. Commercial activity along Route 1 is increasing and as soon as sewer becomes available many of the old buildings will be replaced with new businesses. The increase in new homes continues with a total of 24 new living units approved this year. Two Municipal Buildings were approved in 1995. The Recycling Building on Rocks Road held an open house in December and the Elementary School addition is under construction and should be completed next year. Junk motor vehicles continue to be a problem. Only one unregistered vehicle is allowed on a lot. As time allows I will be addressing this problem in 1996.

PLANNING BOARD REPORT 1995

With the new sewerage coming on line, there has been a tremendous increase in activity for the board. In the year 1995, the planning board processed over forty cases, more than double the 1994 work load. I was very pleased to have the voters of the Town pass the new recommended zoning ordinances which the board spent many hours redesigning to reflect the availability of the municipal sewer system.

Some of the cases put before the board were very challenging such as Forum Development, the new Dunkin Donut's, the continued development of our industrial area, and the growth of businesses along Route 1. Furthermore, there are many challenges still to come to the board as we see not only business on Route 1 continue to expand, but also the entire Seabrook community grow at a tremendous rate.

The increase in activity has demanded that the board make more and more use of outside professional services. I would like to thank Thomas Morgan, our professional town planner, for his valuable help and guidance. I sincerely hope that the board continues to make use of such services to insure the high quality of planning in the future that has been provided this last year. I would also like to thank my vice-chairman Robert Brown who covered the meetings during my absences due to business commitments, and also each individual who has taken there own personal time to be of service to you, the people of Seabrook.

EMERGENCY MANAGEMENT ANNUAL REPORT FOR 1995

I would like to dedicate this year's Emergency Management report to Norman L. Brown who was Director of this office from March of 1983, until he passed away in July of 1995.

"Norm" was very dedicated to this office and the many responsibilities that go with being prepared in the event of an emergency. He was always ready to assist any department whenever needed. I would like to make you aware of the many hours "Norm" spent in his office and on the road to better his work and protect the town. It was a job well done. He worked diligently with the power plant as well as industries in town. While I was fire chief, I had the opportunity to work with him on various projects, and now as emergency management director, I will continue his plans to upgrade the work he left behind and also to develop various ways to protect the town and residents against any emergency that occurs concerning this office.

I have been in this office for only a short time but I have had the cooperation of a good staff to help me catch up on work which I have not been active in for the last six years. I would like to thank them for their patience and assistance. My personal thanks to Ivan Eaton, Sr., Deputy Emergency Management Director for volunteering his time and keeping up on office procedures during the hiring of a new director.

Respectfully submitted,

Ernest B. Sanborn
Emergency Management Director

TOWN OF SEABROOK SCHOLARSHIP FUNDS REPORT - 1995

The Scholarship Funds committee met at the town office on May 15th, May 16th and May 17th, 1995. After reviewing the applications, awards were given to twenty five (25) applicants. Nine (9) of these were presented at awards night at the Winnacunnet High School and sixteen (16) recipients were notified by mail

FIRE DEPARTMENT ANNUAL REPORT FOR 1995

The 1994 report was dedicated to Horatio C. Lattime who retired with 40 years of dedicated service. Mr. Lattime has since passed away and I would now like to dedicate the 1995 report to his memory. Ray is sadly missed and will be for years to come.

By the time this report is published we will have a new ambulance in service, along with seven firefighters who are trained to do Intravenous therapy (EMT-I), along with fourteen firefighters who are already trained to use defibrillators-continuously striving to upgrade the quality of service we will be able to provide to you, the public.

It has been a very busy year in Seabrook especially with the on-going sewer project. We have worked along with them when needed which has been quite often, and is for the protection and safety of all concerned.

The "Learn not to Burn" program is still going on at the school and here at the fire station when possible. I believe this to be a very worthwhile project and has proven to be so on many occasions.

I would like to take this opportunity to thank you the townspeople, and all the departments of the town of Seabrook for your continued support throughout the year, and most of all to the men of this department for a job well done.

Respectfully Submitted,

Jerry W. Brown, Fire Chief

DEPUTY FIRE CHIEF ANNUAL REPORT FOR 1995

I would like to take this opportunity to thank the Chief and the men of this department for their hard work and co-operation throughout the year.

In addition to serving as Deputy Fire Chief, I served as the acting Emergency Management Director for most of 1995 upon the untimely passing of Director Norman Brown.

On behalf of the men of this department I dedicate my annual report to former Chief Horatio Lattime, and EMD Norman Brown. They will both be missed.

The office of Deputy Chief/Fire Prevention has been very busy. In addition to emergency responses and other duties the below items are a report of activities.

SEABROOK LIBRARY

Annual Report

1995

Nineteen ninety-five proved to be another monumental year for the Seabrook Library as it was the first year that the Library spent fully in its new home. Predictably, membership has skyrocketed since the big move with 695 new registrations occurring in 1995 bringing the total registration figure up to 4,451. Circulation, or the number of items loaned, climbed to 27,410 and the number of customers rose to 20,570. These represent increases of 60% and 71% over the previous year, respectively.

During the year there occurred several events of note. Perhaps the most memorable occurrence was the Grand Opening of the new Seabrook Library. Held on October 14, 1995, the occasion proved to be the highlight of the town's social calendar. Live music of the light, classical variety provided by Seabrook Police Officer Melissa G. Walker and her parents; entertainment in the form of mime Debbie O'Carroll; speeches by the New Hampshire State Librarian Kendall Wiggin, Seabrook Library Board of Trustees' Chairman Stanley A. Hamel, and consultant Aaron Cohen of Aaron Cohen Associates; and excellent food all made for a wonderfully successful event. Of course, the building itself was the main attraction and the star of the day. The large, enthusiastic crowd that attended added to the exciting ambience and attested to the fact that everyone had a terrific time.

Another significant event occurred in late November when Laura H. Maroon joined the Library Staff in the new position of Young Adult/Reference Librarian. She is a most valuable addition to the Staff and will concentrate her efforts towards grades 5 - 12.

The Board of Library Trustees gained two new members in the persons of Patricia M. O'Keefe and Stanley A. Hamel who joined Paul M. Kelley and completed the ranks of that body.

The Children's Room held two successful summer programs entitled *Saddle Up a Good Book* for grades 1 - 5, and *Reading Rangers* for the preschool set. The Book Discussion Group continued strong with its monthly dinner meetings, and the Friends of the Library once again sold the ever-popular glow necklaces at Seabrook's Old Home Days, August 19, 1995. Thanks are once again due to Friends' Chairperson Denise Favaloro for all of her efforts in this regard. The Library's annual book sale was held at the new Library on September 23, 1995 combined with a yard sale.

Memberships in the American Library Association, the New England Library Association, the New Hampshire Library Association and the Seacoast Cooperative Libraries were maintained with the Seabrook Library acting as host for a meeting of the Coop in the new meeting room during which Judith Kimball, Supervisor of the Library Development Services Section of the New Hampshire State Library, discussed the new state standards for public libraries.

The Seabrook Library is open Mondays, Wednesdays and Fridays from noon until 8:00 PM; on Tuesdays and Thursdays from 10:00 AM until 6:00 PM; and Saturdays from 9:00 AM until 1:00 PM. Telephone: 603-474-2044; Fax: 603-474-1835; e-mail/internet: ocean@lilac.nhsl.lib.nh.us. Visit, call, fax - communicate; join your friends and neighbors in using your wonderful new Library.

MOSQUITO CONTROL 1995

Surveillance of mosquito breeding sites began in early April.. Larviciding (treatment to control the aquatic stages of mosquitos before they become flying, biting adults) began on the salt marshes on April 20 and on the upland "freshwater" sites on May 1st. Further larvicide treatments were done throughout the summer on the salt marshes after the monthly "high-run" lunar tides and/or heavy rains that reactivate the breeding sites. Upland treatments can also be needed after heavy rains during a 'normal' summer rainwise. This summer, however, was extremely dry and coupled with the low snowfall over the winter, led to extremely low water levels to begin with in the spring. During the 5 month mosquito 'season', (April-Aug.), Seabrook received only 11" of rain (average is close to 19"). The rain that did fall after the dry month of June (1.6") was quickly absorbed by the dry ground.

As was the case last year (and any dry year), most of the species trapped and identified (State required monitoring) were of the salt marsh variety (67%). Overall, 55% of all specimens identified were Aedes sollicitans, a vicious, daytime biter that only breed on salt marshes and fly up to 10 miles. Other species tend to stay in the dark, cool woods during the day and come out to feed at dusk with a limited flight range (0.5-1 mile). As was the case last season, one single night's catch (and one light trap for that matter) can account for a large portion of the seasons total. On July 20, the trap located on the east side of Town caught 24% of the season's total.

Adulticiding (evening spraying with spray truck) was done on 53 different nights between May 31 and Sept. 7 (14 weeks). Three nights are required to cover the whole Town. All sections of Town were covered at least 15 times in 1995.

Greenhead fly traps (106 total) were again placed along the marsh edge to try to intercept these painful biters before they reach the treeline. These flies are attracted to the shade of the boxes, fly up inside where they are trapped, dehydrate and die.

Respectfully submitted,

Lee G. Brooks

REPORT OF THE POLICE CHIEF

The year 1995 was fairly busy for the Seabrook Police Department. Although most of the statistics show a decrease, a disturbing figure was in the cases involved in domestic calls. These calls involve family members and usually children are included. Children are our future generation and if they are raised in a violent environment then more often than not they will grow up to be violent adults. Lets stop this from happening.

The members of the police department and myself feel it is a privilege to work for a town that supports the police department. So many towns and cities have the attitudes that the police are the enemy. In the past few years your police department has changed and you the citizens have noticed this and have supported both the officers and the department.

We still have the Crime Line. The Telephone number is 474-2640. This is an untaped line that calls will be taken on, anonymously or identifying themselves, for any information that can assist the police in apprehension of criminals or preventing crimes.

Our crime prevention program is active and any person or organization may use this service to have their home or business surveyed to help eliminate unauthorized intrusions.

With Sewer Construction evolving many roads are being repaved. We have received several complaints from citizens concerned about speeding on our roadways. I would urge every resident to be mindful that our children occasionally wander onto the streets. Please drive carefully.

We appreciate the many residents who have assisted throughout the year in supporting the police officers and the department.

We wish to thank all residents for a safe 1995 and we will continue professional and consistent enforcement of the laws in 1996.

Respectfully submitted,

Paul J. Cronin

Article 32: To see if the town will vote to adopt the following Entertainment Ordinance and, upon adoption, add the ordinance to the Code of the Town of Seabrook, numbered appropriately:

REGULATION OF NOISE - ENTERTAINMENT ESTABLISHMENTS

DEFINITION: - Entertainment means any live band, jukebox, record player or any type of mechanical music device that is audible outside of the building or premises.

PERMIT REQUIREMENT

Any business that plans entertainment that falls under this ordinance will be required to obtain a permit from the board of selectmen.

HOURS

Live entertainment or sound systems, jukeboxes, etc. will not be allowed to operate between the normal hours of 10:00 p.m. and 9:00 a.m. The board of selectmen may vary the hours of operation based on the circumstances of the application (ie, more restrictive or additional hours.)

INTENSITY AND VOLUME OF NOISE

The intensity and volume of noise will be regulated so as to cause as little disturbance outside the business as possible. Means of regulation will include, but not limited to location of the entertainment; people or device within the structure; insulation or soundproofing of building; keeping baffles such as doors and windows closed as needed and regulation of volume control on speakers. The chief of police or his designee shall act as the enforcement authority of this provision.

POWER TO CLOSE DOWN ENTERTAINMENT

Enforcement agencies are authorized to ensure compliance and temporarily close down the entertainment upon refusal of proprietor or operator to comply or continue to comply with appropriate by-laws, rules and regulations or statutes.

PERMIT REVOKED

Entertainment permit may be revoked for cause. Cause is considered to be one or more violations of appropriate statutes, rules and regulations or by-laws governing entertainment and/or noise.

PENALTY

Any person, firm or corporation willfully violating this regulation shall be subject to a fine of one hundred \$100.00 dollars for the first, five hundred (\$500.00) dollars for the second, one thousand (\$1,000.00) dollars for the third violation within an administrative year, (July 1 through June 30), with administrative revocation of the entertainment permit by the board of selectmen after a hearing, if requested, following the third conviction within a licensing year.

VALIDITY

If any section or part of a section, or paragraph of this chapter is declared invalid or unconstitutional, it shall not be held to invalidate or impair the validity, force or effect of any other section or sections, or part of a section or paragraph of this chapter.

EFFECT ON OTHER LEGISLATION

This chapter is intended to supplement and not replace any other statute, ordinance or other law regulating the subject to which it is addressed.

SEVERABILITY

In the event that any portion of this chapter should be declared to be invalid or void, it shall not effect the validity of any of the remaining.

EFFECTIVE DATE

This chapter shall become effective May 1, 1996.

Article 33: To see what sums of money the town will vote to raise and appropriate for the expense of the general government for the protection of persons and property, for health and sanitation, for highways and bridges, for the support of the town poor and for all necessary expenditures for the ensuing year.

1995 ANNUAL REPORT OF THE SEABROOK RECREATION COMMISSION

The members of the Seabrook Recreation Commission are: Vernon Small, Chairman; William Moore, Jr., Vice Chairman; Charlotte Dow, Secretary; Rosemary Eaton, Parks Department; Oliver Carter, Selectmen; Elliot Eaton and Salvatore Rubera. The administrative staff of the Seabrook Recreation Department are Sandra Beaudoin, Director of Recreation and Edward Pickard, Assistant Director.

The biggest challenge during 1995 was to meet the increasing numbers of younger children who were registering for structure programs. Programs which seem to fill up fast were: youth cooking, preschool creative works, camps, youth arts & crafts, trips and some special events. In most cases the department was able to make adjustments, especially when there was a waiting list large enough to add an additional class or group. We also had a larger turn out for pre-registration days creating longer lines. A waiting area, coffee and activities were provided during the largest registration which was for the summer camps and after camp activities.

Improvement projects at the Community Center were small projects such as completing a new walkway, reorganizing storage areas and improving safety in general. Eight more pairs of roller skates were purchased to help handle the more popular sizes during the Center's Rollerskating nights.

The following indicates the number of different types of Special Events and the average daily usage occurring during 1995. The ranges below display the lowest to highest month of daily averages in attendance.

CENTER/GROUP USE: Over 32 different local groups used the Community Center in 1995 for meetings, training, fund raising and recreation-including health agencies, schools, voting, businesses, scouts, public meetings; civic & booster clubs and leagues.

SEACOAST COCA-COLA IN 1995

Seacoast Coca-Cola Bottling Co. continues to be the leader in supporting youth & teen programs. During 1995, the company provided beverage products, prizes and \$1,500 in sponsorships. The programs which benefited were the Youth Christmas Party, SCC Teen Basketball Team, Youth Basketball League, Rams Football, Walking Club, Old Home Day, School Vacation Contests and the Jr. & Miss Seabrook Contest.

1995 SEABROOK OLD HOME DAYS

The 1995 Seabrook Old Homes Days were again a success and filled with entertainment and fun. The 15th annual Miss Seabrook Contest opened the Old Home Days on Thursday, August 17th where over one hundred and seventy five people witnessed Angelika Brown being crowned as the 1995 Miss Seabrook. On the following night Kaitlyn Fogg was crowned Jr. Miss Seabrook. On Saturday, August 19th local non-profit groups, town departments and others provided food, crafts, contests, entertainment and more. The fireworks were great and the Misty Martin Band was a real hit. They will be back in 1996. On Sunday, August 20th the Seabrook Lions Club held a Turkey Shoot as in the past.

In conclusion, the commission and department staff, extends a special thanks to all those who helped to maintain and carry-out the variety of programs which were offered during 1995. Local volunteers were responsible for coaching over 28 sports teams for youth & teens.

REPORT OF THE BOARD OF ADJUSTMENT - 1995

Your Seabrook ZBA had another interesting year and as in the past, the board members served without pay as New Hampshire law requires. The board had nine cases in 1995.

Once again members continued to attend the law lecture series and seminars to keep current in the ever changing laws and court cases which effect land use, property rights and zoning. The board has again reviewed and updated its by-laws to reflect these changes.

The ZBA board members are once again pleased to submit a "level funded budget" without increases and a modest budget surplus.

The board hasn't had any appeals to the courts for 10 years and of course no need for attorneys or town counsel. By taking advantage of the toll free calls and the excellent and knowledgeable legal staff at the New Hampshire Municipal Association, in which the town is a member, we have all the legal advice we need free of charge.

WELFARE DEPARTMENT REPORT - 1995

For the fiscal year 1995, the Town's welfare department spent a total of \$84,966. Unfortunately, this figure reflects an overdraft of \$16,999. This overdraft is due in large part to cuts in the Federal Fuel Assistance Program (LIHEAP), of approximately 33% last winter, which amounted to \$49,966 less in fuel assistance to Seabrook residents. Also fuel assistance funds for this winter were not available until after the first of January 1996.

A total of 125 families were assisted in 1995, and the Town has recovered \$7,953.14 through promissory notes, assignments, court actions, and liens, and an additional \$3,272. has been worked off by recipients through the Town's Workfare Program.

With current and impending reform in various State and Federal programs, more and more of the burden of assisting our indigent citizens falls to the cities and towns. It is already known that fuel assistance to the State of New Hampshire has been cut by \$3 million this winter, and it is unknown what the cuts will be to other programs.

Respectfully submitted,
Deirdre L. Greene
Welfare Administrator

SEWER PROJECT

On December 18, 1995, the Seabrook Sewer System, including the Wastewater Treatment Plant, was officially started up with the connection of the residence of Anna Eaton, 154 South Main Street. The Selectmen, Sewer Committee, and numerous local and state officials attended the ribbon cutting ceremony at Mrs. Eaton's home.

Back row (left to right) - Sewer Committee Member Bruce G. Brown, Selectman Oliver L. Carter, Jr., State Representative Charles H. Felch, Water and Sewer Superintendent Warner B. Knowles.

Front row (left to right) - State Representative Benjamin S. Moore, Selectman Burwell E. Pike, Mrs. Anna R. Eaton, and Selectman Asa H. Knowles, Jr.

Sewer pipe installation on the west side of Route 95, Farm Lane, Causeway Street, and Route 1 will continue under Contracts #8, #9, and #10 until the summer of 1996 when mainline sewer construction is scheduled to be complete.

The installation of sewage pump stations throughout the Town is proceeding under Contracts #5, #8, #9, and #10 and is scheduled to be complete by summer 1996.

The connection of individual homes and businesses to the sewer system has started and will continue throughout the Town in phases. Homes in the south end of the Town (South Main St., Adams Ave., Washington St.) will be connected first. During 1996, a concentrated effort will be made to connect houses on the beach and the uptown areas along Route 1, Centennial Street, Railroad Avenue, Walton Road, and interconnecting streets.

In 1997, efforts to connect homes and businesses will be concentrated on the west side of Route 95. The connection schedule is very aggressive and the Town would ask the residents to cooperate, as much as possible, with the engineers and contractors who will be working on their property.

The Sewer Project Office is available to answer any question you may have about the connection to your property. The phone number is 474-5601.

SEABROOK BEACH VILLAGE DISTRICT

The Seabrook Beach Village District held its annual meeting on Tuesday evening, April 25, 1995 in the Warren West Memorial Building on Route 1-A

The meeting was called to order at 7:00 p.m. by the moderator, Edward Maguire, Since one of the commissioners had resigned during the year, two commissioners had to be elected- one for a three (3) year term and one (1) for a one for one (1) year term.

The following officers were elected:

Thomas Battles	Commissioner	3 year term
Steven Walsh	Commissioner	1 year term
Henry Thereault	Treasurer	1 year term
Maureen Essigman	Secretary	1 year term

Thomas Battles was elected to serve as chairman at the May meeting.

The beach commissioners meet monthly on the second Wednesday at 7:00 p.m. The Board of Adjustment meets on the third Wednesday of each month as warranted.

For the third consecutive year a group of volunteers have arranged to have a bon fire on the beach the night before the fourth. This year through donations from businesses and others a combo was hired that made the evening more entertaining. For the large gathering that attended the evening proved to be a tremendous success. Our thanks are extended to the Fire, Police and Highway Departments for the work they did on the occasion.

The street lights have all been converted to the new sodium vapor bulbs.

The sewage project has caused quite a few problems but at this time most seem to have been taken care of.

The Building Inspector Department was very busy in 1995 due to the Building and Remodeling activity. Forty permits were issued with a total estimated value of One Million, Ninety Three Thousand, Seven Hundred fifty Four dollars.

The precinct is gearing up for additional building and remodeling activity once sewage is completed.

INDEPENDENT AUDITOR'S REPORT ON FINANCIAL PRESENTATION

To the Members of the
Board of Selectmen and Town Manager
Town of Seabrook
Seabrook, New Hampshire

We have audited the accompanying general purpose financial statements of the Town of Seabrook as of and for the year ended December 31, 1993, as listed in the table of contents. These general purpose financial statements are the responsibility of the Town's management. Our responsibility is to express an opinion on these general purpose financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the general purpose financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the general purpose financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall general purpose financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

As described in Note 1B, the general purpose financial statements referred to above do not include the General Fixed Assets Account Group, which should be included to conform with generally accepted accounting principles. The amount that should be recorded in the General Fixed Assets Account Group is not known.

In our opinion, except for the effect on the financial statements of the omission described in the preceding paragraph, the general purpose financial statements referred to above present fairly, in all material respects, the financial position of the Town of Seabrook as of December 31, 1993, and the results of its operations and cash flows of its nonexpendable trust funds for the year then ended in conformity with generally accepted accounting principles.

Our audit was made for the purpose of forming an opinion on the general purpose financial statements taken as a whole. The combining and individual fund financial statements listed in the table of contents are presented for purposes of additional analysis and are not a required part of the general purpose financial statements of the Town of Seabrook. Such information has been subjected to the auditing procedures applied in the audit of the general purpose financial statements and, in our opinion, is fairly presented in all material respects in relation to the general purpose financial statements taken as a whole.

WATER DEPARTMENT REPORT - 1995

I would like to dedicate this year's Water Department Report to Asa H. Knowles, III. "Ace" as everyone knew him, worked with the department from June of 1993 until his sudden death in July of 1995. He will be missed by all who knew him: friends, family and co-workers. His out-going personality, quick response to being helpful and spontaneous sense of humor will always be remembered.

There were 614,830,941 gallons of water pumped in 1995. This 85,857,725 gallon increase over the previous year was due mainly to the increase in the domestic use.

Industrial-commercial use increased from 130,873,925 in 1994 to 133,460,815 in 1995. This 2,586,890 gallon increase was seen over all. Morton International, K.J. Quinn and Bailey Corporation had the most significant increases: 5.4, 2.0 and 1.3 million gallons respectively. North Atlantic Energy Service was the only one which had a significant decrease of approximately 5 million gallons.

There were 18 water services installed in 1995, four of which were commercial-industrial services (8 inch main to Jerry Richardson's buildings on Batchelder Road, 6 inch main to Golf Day also on Batchelder Road, 6 inch main to G & G on Woodworkers Way and a 2 inch service to the new Dunkin Donuts on Route 1.) Also 8 inch water main services were installed to the new addition to the elementary School, recycling/transfer station, and the sewer treatment plant. Several services (1 inch and 2 inch size) were installed to various sewer pump stations.

Five fire hydrants were repaired after being damaged by motor vehicles or sewer crews. The hydrants were located on New Zealand Road, Chase Way, Weare Road and two on Route 1A.

Many water leaks occurred. Most were caused by the sewer and drainage contractors.

The water crew, with the help of the highway crew, accomplished the following large projects: A 600 ft. section of wrought iron water main and nine services were replaced between Amesbury and Merrimack Streets. Approximately 900 ft. of 8 inch water main, nine water services replaced and a new fire hydrant were installed between two dead end mains on Boyntons Lane and Woodland Avenue. This increased fire flows and improved the quality of water in these areas. About 500 ft. of 8 inch water main with a fire hydrant was installed at the recycling/transfer station. We also installed sewer lines, sewer pump station, electrical conduit and gas lines at this site. Approximately 3000 ft. of new 12 inch water main with four

new fire hydrants was installed along New Zealand Road and Old New Boston Road. Also over the same area trenching and back fill was done to accommodate a gas main installation. This project is to be connected to the new water pump station to be built off of Old New Boston Road in the spring of 1996.

The crew also observed the installation, flushing, chlorinating and testing of other projects: An 8 inch water main and new fire hydrant at the new school addition; 8 inch and 6 inch mains with a fire hydrant off of Batchelder Road servicing three industrial-commercial buildings of Jerry Richardson. The sewer contractor Albanese Brothers from Dracut, MA. replaced all the water mains, fire hydrants and water services on River Street.

A large part of our time has been spent with sewer and drainage crews. We have been busy marking and locating water mains and services and also turning on and off water for scheduled and emergency work.

New chlorination equipment has been installed by the crew in all of our pump stations. Chlorine will only be used in times of main flushing or during an emergency.

The lack of spring and summer rainfall caused the ground water levels to drop. Since this is where we get our water for the town's usages, we were forced to impose a total ban on the outside use of water during the summer months. The only exception was that owners with vegetable gardens could use 1 inch of water once a week. With this in mind I would like to thank everyone who cooperated with observing the ban.

Remember...water is a precious and useful resource and should be used wisely and not wastefully. Conserving water is everyone's responsibility.

Respectfully submitted,

Warner B. Knowles
Water/Sewer Superintendent

Department of Public Works Report - 1995

This was the first full year for the DPW as one department that includes highway, rubbish, recycling, cemeteries, parks and mosquito control.

The biggest achievement was the completion of the new transfer station/recycling center. This 10,000 sq. ft. facility is certain to make all of us very proud. The building was constructed to allow for growth as the "recycling world" changes daily.

Some interesting facts about the transfer station include:

- Completion time - 8 months
- Architect - Kelly Davis, Portsmouth
- General Contractor - Meridian Construction, Bedford/Laconia
- Size - 160' by 60'
- Marketing Co-op - NRRA, Concord

The DPW crews did considerable work on the site of the transfer station. Duties included grading, compacting, installing drainage and digging footings. Numerous yards of gravel were trucked in for site preparation by our staff. They installed the perimeter fence as well as building the inside office space and swap shop.

The recycling program has expanded to include glass, aluminum/steel cans, newsprint, plastic and the swap shop. Thanks to the Seabrook residents we have pulled 430.57 tons out of the wastestream and turned that into a considerable savings for all of us. The following is a breakdown of the amount of materials recycled:

- Newsprint = 139.14 tons
- Glass = 60.78 tons
- Tires = 28.82 tons
- Scrap Metal = 159.77 tons
- Steel Cans = 34.71 tons
- Alum. Cans = 7.35 tons

Highway crews kept busy once again working with the sewer construction project. Drainage was installed in different parts of town and we helped the water department put in water lines.

Other highway projects included adding drainage and enlarging the rear parking lot of the police station. Crews worked on the DPW addition of 3 new truck bays and upgraded office space. Numerous lengths of snow fence were taken down at

the beach. The snow fence removal will continue into 1996 as well. Workers cleared a section off of Old New Boston Road to make way for building a road for a new water pump station.

I wish to thank all of the DPW employees for the tremendous amount of work they performed during this very busy year. We would also like to thank the water and sewer departments for their assistance throughout the year. A special thanks to the Recycling Committee for their efforts in seeing through the completion of the Transfer Station and Recycling Center.

Respectfully submitted,
Mark S. Eaton
DPW Manager
